---

## **Sharing economy specialist Pikl and Prestige Underwriting have signed a distribution partnership.**

The agreement will provide managing general agent Prestige's brokers access to the insurtech's top-up insurance products via its Covernet portal.

Pikl explained that the products are geared towards those of Prestige's broker partners that specialise in the short-term rental of rooms, whole properties or parking spaces.

### Gap in the market

It detailed that its products had been developed to address a gap in the market, as most standard home insurance policies will not cover short-term rentals.
